

**THE EMBODIMENTS OF THE INVENTION IN WHICH AN EXCLUSIVE PROPERTY  
OR PRIVILEGE IS CLAIMED ARE DEFINED AS FOLLOWS:-**

**/WHAT I CLAIM AS MY INVENTION:-**

1. A pelting system comprising:
  - 5 a. a template having the standard form and size of industry standard pelts,
  - b. a plurality of evenly-spaced perforations along the periphery of each size template,
  - c. pointed nails,
  - d. a method in which to gain the most from a fur pelt,
- 10 2. The pelting system of claim 1 wherein said template may come from a printed sheet material to be transferred to a rigid planar sheet material of suitable thickness to provide lateral support to nail.
- 15 3. The pelting system of claim 2 wherein the rigid planar sheet material is preferably plywood.
4. The pelting system of claim 1 wherein the plurality of perforations have beveled edges so as to ease the entry of a nail.
5. The pelting system of claims 1 and 4 wherein the plurality of perforations further comprise a slight outward tilt when regarded from rear to front of sheet.

6. The pelting system of claim 1 wherein the pointed nails are further sharpened so as to prevent further damage to pelt edge.
7. The pelting system of claims 1, 4 and 5 wherein the perforations traverse the entire thickness of the rigid planar sheet material.
- 5 8. The pelting system of claims 1, 4, 5 and 7 wherein said perforations have an diameter slightly greater than the outside diameter of the pointed nails.
9. The pelting system of claims 1 through 8 wherein use thereof is to increase the accuracy of pelt output in industry so as to make the most of each fur.
